FROM CALIFORNIA.

We have been politely furnished with Weaver creek, in the mines. The news aged 24. it contains is anticipated by later dates, which we give below. We may state, however, his health was bad, but he had met with tolerable success in mining. He says the great desire of all, is to get back home--their great regret they ever left home. He adhome with as much as I had when I resource of miners, when surface gold fails. thinks they had not got in.

The latest news from California, is to the 5th October, and is of a melancholy nature. It was brought by the steamer Ohio to New Orleans. Twenty Thousand Men Beyond the

Desert! Cholera!! Starvation!!! Indian Hostilities!!!!

The Sacramento Transcript of the 29th Sept. contains a letter dated at the Great Meadows, Humboldt river, Sept. 12, from Capt. Waldo, the philanthropic and energetic friend of the emigrants. He states that he met many who had given up to die, others without food, save the worn out horses which had borne them thus far on the way mules having given out. No one now thinks of gold--the cry is for bread.

The Indians have stolen a great number of the emigrant stock thereby many families miles from the settlements, without teams or has exceeded his most sanguine expoctations. means of conveyance, and the Indians are daily growing more hostile and daring,--There is scarcely a day passes, that there are not more or less skirmishes between them and the whites. "Many women are on the road with family

lies of children, who have lost their husbands by cholers, and who never will cross the and for sale by mountains without aid. I have met intelligent packers who left the Missouri river on the 1st of July, they concur in the statement, that there are yet 20,000 back of the per Robt. Campbell a new supply consisting Desert. Fifteen thousand of this number ere now destitute of all kinds of provisions, yet the period of the greatest suffering has not yet arrived, if the supposition be correct, that 20,000 are yet back of the Sink. It will be morally impossible for ten thousand of this number to reach the mountains be for the commencement of winter, and the probability is, that they will then find these the 19th October, one strawberry roan horse: mountains covered with snow from five to years old past, near 16 hands high, one foot twenty feet deep. All remember the fate narrow across the hips, walks, trots and paces of the Donner party."

In another letter, dated Truckee river, Sept. 15th, 1850, he states other facts in relation to the prevalence of cholera, deaths among the immigrants, and the hostility of the Indians towards them. He closes his letter with an cornest appeal for help to those unfortunate people. We sincerely hope his appeal will not be in vain.

From Boiling Spring to this place (Great Meadows) I have met with but few who have any provisions at all, except the poor exhausted animals which have worked from the States. Footmen, who comprise nearly one-fourth of the number now on the road, are not blessed even with such food as this, but are reduced to the necessity of subsisting on the putrified flesh of such dead animals as the same terms charged by the local offices so abundantly line the road. This has produced the most fatal consequences. Disease and death are now mowing them down by hundreds.

The Oregon Imigrants .- The news from the imigrants on Snake river is of rather a miums paid. All losses will be liberally melancholy nature. Some packers who arrived at Oregon City about the 12th inst., report about one thousand wagons destined for Oregon Tarritory--that they had passed this number of wagons between Fort Hall and the Dalles, the rear part of the California emigration having changed their course to Oregon.

so long on the road that they have generally lor wood; plain and air-tight box and ten plate exhausted their supplies of provisions, many stoves as follows: of them have scarcely been able to keep body and soul together. The government from the Dallas post, has been quite active in furnishing supplies. The early portion of the imigration fared much better, although they were not met on their way, yet they could obtain plenty upon their arrival at the

A large portion of the emigrants fell into the common error of this season, that of loading too lightly with provisions, and hence the distress.

The Oregon Spectator of Sept. 19th, says: A latter train just arrived, brings accounts of a murder committed on Burnt river. Capt. Daniel Fisher, from Macon county, Missouri, was shot in the back with a rifle trail, by a party of Snake Indians, while driving some loose cattle.

Among the deaths, we notice the names of NEW CASH STORE John F. Bryant, Monroe Co., Mo., aged 23 a letter written by John T. Metcalf, years, Nathan White, Missouri, aged 49, now in California, to his uncle, residing Wm. H. Arnett, Henry Co. Mo., aged 25. in this county. The letter is dated Jas. M. Wells, Buchanan Co., Mo., sged Sept. 10th, 1850, and was written on 25, N. D. Thornton, Johnson Co. Mo.,

> There were upwards of 2,000 people at the Isthmus, homeward bound, when the Ohio left.

The intelligence from the mines is of a mixed description. Wherever the streams have been dammed, a plentiful yield of gold has been the result; but several of the dams have recently given way in consequence of vises all to stay at home. A number of the rising of the waters, and the labor of the emigrants, as our readers know, months has thus been rendered fruitless .-passed directly through the mines, and Gold bearing quartz continues to be discovshipped for home. He says, "if I get ered, and this in the end will form the great

started, and what I could have made, 1 The news of the engrossment of the Caliwill be satisfied. He speaks of having fornia bill in the Senate, produced, on its seen T. Emerson and John Marr. He receipt in this city, the liveliest emotions of had not heard of Rev. A. Mussitt's joy, and the hopes of the people are raised train since they were at Salt Lake, and high in the expectation of hearing by the date the 28th of October, 1850. next steemer, of the admission of this State into the Union.

The coming elections to be held on the than was anticipated The candidates for the various offices are almost innumerable.

A gentleman who returned day before yes terday from a short trip along the Yuba river, informs us that he stopped at Sicards Bar just as the men were leaving off work for dinner, and that upon taking the gold out of the machines, they found they had Court of Randolph County, letters of Adminover fourteen pounds as the proceeds of the morning's labor.

The account of the Mariposa are of a most glowing description. These mines so all persons having Claims against said estate long said to be exhausted, are yielding, at are requested to exhibit them, properly auto California. Some were living on dead the present time, as much as they ever did thenticated, within one year from the date of and putrid torse-flesh - some had died from in their most palmy days. The works of having any benefit of said estate, and if said starvation. He says he has met very few Capt. Jackson are in successful operation, claims are not presented within three years who have any provisions, and nearly all he has at last succeeded in obtaining every are travelling on foot, their horses end adaptation of machinery for the crushing of quarts, and the subsequent extraction of the gold.

No doubt is entertained of the ultimate realization of a large fortune from the vein have been left from four to ata bundred he is at present employed upon, its richness
